Executive**DASCD3 Disability separation reinstatement deadline****R.C. 124.32**

Increases the deadline for reinstatement from 30 days to 60 days following the submission of a written application for reinstatement from a person who has been separated from an office or position they held in the classified service due to an injury or disability.

Fiscal effect: None apparent.

DASCD2 Sale of excess or surplus supplies**R.C. 125.13**

Permits the Director of Administrative Services to dispose of excess or surplus supplies to the general public by sale, in addition to the current authority to do so by auction, sealed bid, or negotiation.

Fiscal effect: To the extent that this additional method of disposal affects price, there could be some effect on revenues received by DAS. Revenues received for the sale of surplus items are deposited into the Investment Recovery Fund (Fund 4270) and subsequently distributed to other state funds.

DASCD4 Official public notice web site**R.C. 125.182, 7.10, 7.16, 2701.09**

- (1) Changes the name of the state public notice website to the "Official Public Notice Web Site."
- (2) Revises requirements that apply to the Office of Information Technology for establishing, maintaining, and operating the official public notice web site. Eliminates the requirement for the Office of Information Technology (OIT) to bear the expense of maintaining the domain name for the official public notice web site.
- (3) Allows OIT or its contractor to charge a fee for enhanced search and customized content delivery features of the official public notice web site. Allows OIT or its contractor to charge the publisher of a newspaper or daily law journal a reasonable, uniform fee for posting notices and advertisements on the official public notice web site. Requires free publication of a state agency's or political subdivision's advertisements, notices, or proclamations on a newspaper's web

Executive

site, if the newspaper has one, and on the official public notice web site.

(4) Requires the publisher of a daily law journal in which abstracts of legal notices of advertisements are published to also post those notices and advertisements in their entirety on the journal's web site, if it has one, and the official public notice web site.

(5) Requires, if requested, OIT or its contractor to provide a regularly scheduled feed or similar data transfer to DAS of notices and advertisements posted on the web site, provided the feed not be required more frequently than once each business day.

(6) Specifies that an error in a notice or advertisement posted on the web site does not constitute a defect in making a legal publication of the notice or advertisement if the notice or advertisement published in the newspaper or daily law journal is correct.

(7) Requires the publisher of a newspaper or daily law journal that maintains a web site to include a link to the official public notice web site.

(8) Changes the second, abbreviated notice or advertisement publication requirements that a state agency or political subdivision must meet to eliminate further newspaper publications by: (A) eliminating a requirement that the second abbreviated notice be published on a newspaper's Internet web site, if the newspaper has one; (B) specifying that the publisher of the newspaper post the second, abbreviated notice or advertisement on the official public notice web site at no additional cost; and (C) requiring that the abbreviated second notice need only include the Internet address of the official public notice web site and the name, address, telephone number, and email address of the state agency, political subdivision, or other party responsible for publication (thereby eliminating the need for these entities to include their own specific Internet addresses).

Fiscal effect: Potential for a minimal gain in revenues collected by OIT resulting from user fees charged for enhanced searches, customized content delivery, and uniform fees charged for posting notices and advertisements. Alternatively, if OIT's contractor assesses these fees rather than OIT, there would be no fiscal effect.

AGECD2 Criminal records checks for direct-care positions

**R.C. 109.572, 173.27, 173.38, 3701.881, 5123.081,
5123.169, 5164.34, 5164.342**

Revises provisions regarding criminal records checks, hiring and retention, and conditional hiring for specified positions or certificates as follows:

(1) Removes provisions that specify that a finding of eligibility for intervention in lieu of conviction of certain offenses is a disqualifying offense with respect to positions: that provide ombudsman services to residents and recipients; that involve a direct-care position with an area agency on aging (AAA), a PASSPORT administrative agency (PAA), a provider, or a subcontractor; with a home health agency involving direct care to an individual; and with the Ohio Department of Developmental Disabilities (ODODD) or a county board of developmental disabilities, or direct mental retardation or developmental disabilities service positions with a provider or subcontractor; and with respect to supported living certificates.

(2) Clarifies a distinction between initially hiring a person and retaining a person employed in a specified position, and clarifies provisions regarding the conditional hiring of a person with respect to positions: that provide ombudsman services to residents and recipients; that involve a direct-care position with an AAA, a PAA, a provider, or a subcontractor; with a home health agency involving direct care to an individual; with the ODODD or a county board of developmental disabilities, or direct mental retardation or developmental disabilities services positions with a provider or subcontractor; with a Medicaid provider; and with a Medicaid waiver agency.

(3) In the provisions that require a "responsible party" (an AAA, PAA, a provider, or a subcontractor) to conduct a review and obtain a criminal records check before hiring an applicant or retaining an employee in a direct-care position, expands the definition of "responsible party" to include a consumer who, as the employer of record, directs a consumer-directed provider, and revises procedures for the conduct of criminal records checks regarding self-employed providers so that the involved AAA or PAA has the responsibility for the records checks.

Fiscal effect: None, assuming the applicant pays for the criminal records check.

AGECD1 MyCare Ohio Program activities

Section: **610.20**
Amends Section 209.30 of H.B. 59

Allows the following appropriation items, within ODA, to be used to provide ombudsman program activities to consumers participating in the MyCare Ohio Program: 490410, Long-Term Care Ombudsman, 490618, Federal Aging Grants, 490612, Federal Independence Services, 490609, Regional Long-Term Care Ombudsman Program, and 490620, Ombudsman Support.

AGRCD1 Amusement ride inspection fees

R.C. 1711.53, 1711.50

(1) Increases the annual inspection and reinspection fee for a roller coaster from \$950 to \$1,200 (unless the roller coaster qualifies as a kiddie ride, as described in (3)), and clarifies that the \$5 annual inspection and reinspection fee for go karts is calculated per kart.

(2) Requires the Department of Agriculture to charge an annual inspection and reinspection per-ride fee of \$105 for inflatable rides, both kiddie and adult.

(3) Stipulates in statute what constitutes a kiddie ride by defining it to mean an amusement ride "designed for use by children under 13 years of age" (rather than "designed primarily for use by children up to 12 years of age" as currently defined in rule), adding (a) that the children are unaccompanied by another person and (b) that it includes a roller coaster that is not more than 40 feet in elevation. Correspondingly removes the requirement that "kiddie rides" be defined by rule.

Fiscal effect: The inspection fees for inflatable rides currently differ depending upon whether the ride is a kiddie ride (\$100) or an adult ride (\$160). Standardizing the inspection fee for all inflatable rides will likely result in a minimal loss of revenue from these inspections, while increasing the roller coaster inspection fee will likely result in some additional revenue deposited into the Amusement Ride Inspection Fund (Fund 5780). The anticipated net impact of these adjustments, however, is a decline in annual inspection revenue to Fund 5780.

AGOCD1 Cash transfer from the Pre-Securitization Tobacco Payments Fund to the Tobacco Oversight Administration and Enforcement Fund

Section: 610.20
Amends Section 221.10 of H.B. 59

Permits the Director of Budget and Management, on July 1, 2014, or as soon as possible thereafter, to transfer up to \$8 million from the Pre-Securitization Tobacco Payments Fund (Fund 5LS0) to the Tobacco Oversight Administration and Enforcement Fund (Fund U087).

Executive

OBMCD1 Shared services**R.C. 9.482, 126.21, 126.25**

- (1) Codifies the authority for the Director of OBM to operate a Shared Services Center to consolidate common business functions and transactional processes.
- (2) Specifies that the Shared Services Center may offer services to state agencies and political subdivisions of the state.
- (3) Authorizes the Director to administer a payment card program under which political subdivisions may use a payment card to purchase equipment, materials, supplies, or services in accordance with guidelines issued by the Director.
- (4) Requires that the services provided by the Director be supported by charges to defray the expense of those services.
- (5) Permits a political subdivision to enter into an agreement with a state agency under which the state agency is to perform a function or render a service for the political subdivision that the political subdivision is otherwise legally authorized to perform or render, and permits a state agency to enter into an agreement with a political subdivision under which the political subdivision is to perform a function or render a service for the state agency that the state agency is otherwise legally authorized to perform or render.

Fiscal effect: Possible gain in revenue to and increase in expenditures from the Accounting and Budgeting Fund (Fund 1050) if the Shared Services Center's service lines are utilized to a greater degree. Political subdivisions utilizing a state-administered payment card program may experience more efficient acquisition processes and lower overall transaction costs. However, many political subdivisions may already use procurement cards under continuing law. Potential initial increase in administrative costs for entities that participate in shared services agreements, but potential savings after implementation.

OBMCD2 Appropriations related to grant reconciliation and close-out**Section: 503.10**

Permits the director of an agency to request the Director of OBM to authorize additional expenditures in order to return unspent cash to a grantor when, as a result of the reconciliation and close-out process for a grant, an amount of money is identified as unspent and that amount requires remittance to the grantor. Appropriates the additional amounts upon the approval of the Director of OBM.

Executive

Fiscal effect: Potential minimal decrease in agency administrative burdens from no longer having to seek Controlling Board approval for appropriation adjustments in these circumstances.

OBMCD3 Reestablishing encumbrances that use outdated expense account codes

Section: 509.10

Beginning January 1, 2015, permits the Director of OBM to cancel any existing operating or capital encumbrances from prior fiscal years that reference outdated expense account codes and, if needed, re-establish them against the same appropriation items referencing updated expense account codes. Specifies that any business commenced but not completed under the prior encumbrances by January 1, 2015 must be completed under the new encumbrances in the same manner and with the same effect as if it was completed with regard to the old encumbrances.

(The test covers an applicant's knowledge and comprehension of topics such as ethics and federal and state law on mortgage origination generally.)

Requires a designated business operations manager of a mortgage broker business to pass a written test developed and approved by the Nationwide Mortgage Licensing System and Registry instead of a written test approved by the Superintendent of Financial Institutions.

Fiscal effect: None.

Eliminates a requirement that the Director adopt rules defining "established risk," "biological risk," and "environmental risk."

Eliminates (1) ODODD's express authority to adopt rules establishing eligibility for programs and services for individuals under age six who have a biological risk or environmental risk of a developmental delay and (2) county DD boards' express authority to establish such individuals' eligibility for programs and services.

JFSCD7 Definition of "remuneration" for purposes of unemployment compensation

R.C. 4141.01

Expands the current law list of types of compensation that are not considered "remuneration" for purposes of Ohio's Unemployment Compensation Law (thus matching federal exclusions):

- (1) Payments made to a health savings account or an Archer medical savings account, if it is reasonable to believe the employee will be able to exclude the payments from income;
- (2) Remuneration on account of a stock transfer through an incentive stock option plan or employee stock purchase plan, or disposition of that stock;
- (3) Any benefit or payment that is excluded from an employee's gross income if the employee is a qualified volunteer for an emergency response organization.

Excludes the types of compensation listed above from an employee's "net take-home weekly wage" for purposes of determining the amount of the employee's temporary total disability compensation under Ohio's Workers' Compensation Law, because the definition of that term cross-references to the definition of "remuneration" under Ohio's Unemployment Compensation Law (see R.C. 4123.56 (A)).

Executive

Fiscal effect: By adding types of compensation that cannot be considered as part of an individual's income when determining the individual's average weekly wage (for determining an individual's weekly benefit amount), there would likely be a decrease unemployment benefit amounts to some individuals, and therefore, a decrease in unemployment benefit payments.

JFSCD9 Abolish inactive funds

R.C. *4141.09, 3125.191 (repealed), 4141.11, and 4141.131; Section 512.30*

Provides for all money received from the sale of real property that is no longer needed for the operations of the ODJFS Director under the Unemployment Compensation Program to be deposited into the Unemployment Compensation Special Administrative Fund.

Fiscal effect: As of February, only nine of the funds to be abolished in the bill had cash balances, which totaled about \$323,700. Of this amount, about \$323,325 will be deposited into Fund 5DM0 and about \$375 will be deposited into the GRF.

JFSCD2 Unemployment penalty

R.C. *4141.20*

Eliminates a \$500 forfeiture that currently is required to be assessed against any employer who fails to furnish information to the ODJFS Director.

JFSCD3 Waiver of maximum unemployment rate**R.C. 4141.26**

Permits the ODJFS Director to waive the maximum unemployment contribution rate assigned to an employer due to an employer's failure to timely furnish required wage information, if the failure was a result of circumstances beyond the employer's or the employer's agent's control.

Requires the Director to adopt rules to prescribe requirements and procedures for requesting a waiver.

Fiscal effect: Potential loss of revenue to Ohio's Unemployment Compensation Trust Fund, depending up on the number of waivers granted against the maximum contribution.

Fiscal effect: Potential decrease in administrative costs to ODJFS for processing the majority of claims electronically.

Executive

JFSCD6 Registration requirement for unemployment compensation claimants

R.C. 4141.29

Breaks an individual's unemployment benefit registration period if the individual fails to report to the ODJFS Director or reopen an existing claim as required under continuing law, thus allowing the Director to immediately cease benefit payments until the requirement is satisfied, rather than, as under current law, continuing to issue payments during the three-week registration period and then determining the requirement was not satisfied, resulting in an overpayment the Director must collect.

Fiscal effect: Potential savings to Ohio's Unemployment Compensation Trust Fund from reduced unemployment benefit overpayments.

JFSCD5 Application of unemployment compensation repayments

R.C. 4141.35

Excludes payments made pursuant to unclaimed fund recoveries, lottery award offsets, and state tax refund offsets, from the continuing law order in which the ODJFS Director must apply unemployment compensation repayments to the mutualized account or to employer accounts.

JFSCD11 Inspections and licensure of type B family day-care homes

R.C. 5104.03

DNRCD16 Use of Oil and Gas Well Fund for infrastructure**R.C. 1509.071, Section 610.20
 Amends Section 333.10 of H.B. 59**

(1) Authorizes the Chief of the Division of Oil and Gas Resources Management to spend money credited to the Oil and Gas Well Fund to develop infrastructure as a solution to problems directly attributable to historic production operations. Requires the Chief to adopt rules in accordance with Chapter 119. of the Revised Code for this purpose, and requires the rules to establish criteria for determining the types of infrastructure for which revenues may be used.

(2) Eliminates the requirement in current law that the Chief spend not less than 14% of the revenue credited to the Fund the previous fiscal year to plug idle and orphaned wells and properly restore the land surface, but retains the authority of the Chief to use money credited to the Fund for these purposes.

Fiscal effect: While the requirement that the Chief spend at least 14% of the previous fiscal year's revenues to the Oil and Gas Well Fund (Fund 5180) on well plugging and land restoration activities would be eliminated, the Chief would have the flexibility to spend more or less than that percentage on those purposes. Additionally, increases the existing FY 2015 appropriation to Fund 5180 appropriation item 725677, Oil and Gas Well Plugging, from \$1.5 million to \$2.5 million for these purposes.

DNRCD7 Nonresident deer permit and hunting license fees**R.C. 1533.10, 1533.11, 1533.12**

(1) Revises existing law requiring the procurement of a deer permit to hunt deer by establishing a nonresident deer permit, the fee for which is \$99, and a resident deer permit, the fee for which is \$23.

(2) Specifies that the fee for a youth deer permit established in current law is one-half of the regular resident deer permit fee regardless of residency.

(3) Revises existing law requiring a person on active duty in the U.S. Armed Forces who is either stationed in Ohio or on leave or furlough to obtain a deer permit by requiring such a person to obtain a resident deer permit and specifying that the person is eligible to obtain a resident deer permit regardless of whether the person is a resident of Ohio.

(4) Increases the nonresident hunting license fee and the apprentice nonresident hunting license fee from \$124 to \$149.

Executive

Fiscal effect: The Wildlife Fund (Fund 7015) will likely receive some additional revenue from increased fees for nonresident deer permits, hunting licenses, and apprentice hunting licenses. A portion of this gain may be offset by a reduction in revenue from the sale of youth deer permits to nonresident youth, which would be reduced to half the price of a resident adult deer permit.

Authorizes the Department of Natural Resources to use moneys appropriated to it in the Ohio Parks and Natural Resources Fund (Fund 7031) and the Parks and Recreation Improvement Fund (Fund 7035) for capital projects, including, but not limited to, improvements or renovations on land or property owned by the Department but used and operated, under a lease or other agreement, by an entity other than the Department. Eliminates the provision prohibiting the Board of Pharmacy from imposing a charge on terminal distributors of dangerous drugs, pharmacists, and prescribers to establish and maintain the Ohio Automated Rx Reporting System (OARRS).

Fiscal effect: If the Board of Pharmacy were to subsequently impose such a charge it would be adopted as part of their administrative rules. Generated revenue would be deposited to the credit of the Occupational Licensing and Regulatory Fund (Fund 4K90). Total annual revenue would depend on the level at which such a charge is set by the Board.

PUCCD6 Recovery of environmental remediation costs**R.C. 4909.157**

- (1) Permits the Public Utilities Commission to authorize, through a mechanism, a natural gas company or gas company to recover environmental remediation costs "prudently incurred" before 2025 that are related to real property that was formerly the site of a manufactured gas plant, and incurred under the Voluntary Action Program ordered by an environmental agency or a court or costs that are subject to a previously authorized regulatory asset.
- (2) Defines a manufactured gas plant as a plant that was operational prior to 1970 and that produced, for sale to customers, manufactured gas from coal gas process, carburetted water gas process, or oil gas process.
- (3) Requires an application and an evidentiary hearing in which the applicant bears the burden of proof.
- (4) Requires, if recovery is authorized, the company to, upon the sale of the real property, return to customers the difference between the sale price, minus reasonable sale expenses, and the property's fair market value prior to remediation.
- (5) Declares that certain ratemaking provisions do not preclude recovery of these environmental remediation costs.

Fiscal effect: If approved for recovery by PUCO, costs will increase for customers of the natural gas company or gas company.

PUCCD4 Uniform registration and permitting for transportation of hazardous materials**R.C. 4923.02**

Specifies that certain persons exempt from the motor carrier law must not be construed to be relieved from complying with the existing law and rules governing the uniform registration and permitting for transportation of hazardous materials and the duty to pay the applicable fees.

Fiscal effect: Likely none; this provision clarifies existing law.

Executive

PUCCD2 Energy efficiency requirement**R.C. 4928.66**

Repeals a provision that prohibits an electric distribution utility (EDU) from applying, to an annual energy savings requirement in current law achieved through a waste energy recovery or combined heat and power system, more than the total annual percentage of the EDU's industrial-customer load, relative to the EDU's total load.

Fiscal effect: Potential decrease in cost for utility to meet requirement, with consequent potential decrease in cost of electricity for ratepayers.

PWCCD1 Repayment of Clean Ohio Conservation Grants

R.C. 164.26, 164.261, Section 503.30

(1) Requires repayments of Clean Ohio Conservation Grants to be returned to the natural resource assistance councils that approved the original grant applications, and requires repayment funds to be used for the same purpose as that for which the grant was originally approved.

(2) Requires grant repayments to be deposited into the Clean Ohio Conservation Fund before they are returned to the appropriate councils.

(3) Specifies that any grant repayment received by the Public Works Commission and deposited into the Clean Ohio Conservation Fund is appropriated in appropriation item C15060, Clean Ohio Conservation.

(4) Requires the Director of the Public Works Commission to establish policies providing for "liquidated damages and grant repayment" rather than "penalties, including grant repayment."

Fiscal effect: The Clean Ohio Conservation Fund (Fund 7056) could receive revenues from grant repayments, but these revenues would be required to be returned to the natural resource assistance council that approved the original application. The appropriation of the received repayments provides for the payment of the returned funds to the councils.

Commercial Activity Tax

TAXCD14 Historic Preservation Tax Credit taken against the CAT

Section: 757.20

Authorizes certain holders of historic rehabilitation tax credit certificates to temporarily claim a historic rehabilitation credit against the commercial activity tax (CAT) if the holder cannot claim the credit against any of the personal income tax, financial institutions tax, or insurance premium taxes, as authorized under continuing law. Limits the amount that may be claimed against the CAT to \$5 million per certificate.

Authorizes a corporate owner of a pass-through entity to claim the credit only if the owner is in the same combined or consolidated CAT taxpayer group as the entity or if the credit was issued in the name of the owner.

Fiscal effect: Decreases revenue from the CAT by an undetermined amount. Under current law, the GRF receives 50% of CAT revenue; the School District Tangible Property Tax Replacement Fund (Fund 7047) and the Local Government Tangible Property Tax Replacement Fund (Fund 7081) receive 35% and 15%, respectively, of CAT receipts.

Executive**DOTCD1 Local government participation in ODOT contracts****R.C. 5513.01**

(1) Authorizes regional planning commissions, regional councils of government, and other associations of local governments to participate in contracts into which the Director of Transportation has entered for the purchase of machinery, materials, supplies, or other articles and exempts those purchases made pursuant to such contracts from competitive bidding requirements.

(2) Makes various technical changes to the statute governing contracts entered into by the Department of Transportation for the purchase of machinery, materials, supplies, and other articles.

Fiscal effect: If regional planning commissions, regional councils of government, and other local government associations are able to secure discounted prices on certain purchases as a result of joining with eligible ODOT purchasing contracts, those subdivisions could realize some savings.

Executive**DYSCD2 Report of child abuse or neglect of delinquent child to State Highway Patrol****R.C. 2151.421, 5139.12**

- (1) Requires a person who reports the abuse or neglect or threat of abuse or neglect of a child under 18 years of age or a mentally retarded, developmentally disabled, or physically impaired child under 21 years of age under current law to direct the report to the State Highway Patrol if the child is a delinquent child in the custody of an institution under the management and control of the Department of Youth Services (DYS) or a private entity under contract with DHS.
- (2) Requires the Patrol, upon finding probable cause of the abuse, neglect, or threat, to report its findings to DHS, the court that ordered the delinquent child's custody to DHS, the public children services agency in the county of the child's residence or where the abuse, neglect, or threat occurred, and the Correctional Institution Inspection Committee.
- (3) Adds a superintendent or regional administrator employed by DHS to the list of persons who are required under existing law to make reports of such abuse or neglect or threat of abuse or neglect.

Fiscal effect: None, largely codifying current practice.

DYSCD3 Placement of delinquents in community corrections facilities**R.C. 2152.19, 5139.05, 5139.34, 5139.36, 5139.41**

Permits the Department of Youth Services to place a felony delinquent in the Department's custody directly into a community corrections facility without getting consent from the committing court.

Fiscal effect: Potential increase in annual operating expenses for community corrections facilities, the magnitude of which will depend on the number of felony delinquents placed in such a facility by the Department when the committing court would have otherwise not consented to the placement under current law. Any increase in expenses will be offset at least partially, or in whole, by additional funding from the Department.

Executive**DYSCD1 Quality Assurance Program****R.C. 5139.45**

Establishes the Office of Quality Assurance and Improvement within the Department of Youth Services, provides that quality assurance records are confidential and are not public records, and provides circumstances for when quality assurance records may be disclosed and testimony may be provided concerning those records.

Fiscal effect: None, codifying current practice.
